

Job Role: Oracle (APEX) Developer.

Competitive Salary up to £35,000 per annum.

Global is a truly inspirational business.

We are one of the UK's most dynamic fleet management and rental companies, and we are thinking bigger than ever before. We are taking on new challenges, expanding and finding new ways to deliver the best value. You could be part of this adventure.

Yorkshire based, with UK wide coverage, our fundamental principles of high quality professional service and tailored solutions are as true today as they were 20 years ago. Our strong reputation is key to our success. We offer fleet solutions to simplify fleet management. Our comprehensive and market leading range of products

and services includes vehicle daily rental, contract hire, remarketing, maintenance and servicing.

But it's not what we do, it's the way we do it that makes us so extraordinary. Customers are at the centre of our thinking and decision making all of the time.

Constantly innovating, the Global team is talented, diverse and hard working. It's a high octane performance led culture where we have fun. If you share our values, want to be challenged, get support for your professional growth and be well rewarded, you will fit right in!

What you will do:

- The Oracle (APEX) Developer will play a major role in the development of in-house applications and reporting systems to support the business in its drive to maximise performance and capitalise on growth.

How you will do it...

- Develop Oracle PL/SQL routines and report mechanisms using the Oracle Application Express (APEX) development platform.
- Deal with data models and relational database mapping.
- Support the operational teams in improving their processes and data management.

What you need to be successful...

- Ideally, have graduated with a Computer Science or related degree and have at least 2 years' experience of Oracle/APEX Development.
- A good understanding and solid experience of implementing Oracle security, auditing and best practices.
- Knowledge and proven experience of working with PL/SQL, stored procedures, triggers and replication.
- Experience of working to standard procedures and change control.
- Be highly self-motivated and able to motivate and influence others.

Above all, you will need...

- **PASSION** for learning and a desire to succeed.
- **INTEGRITY**, consistently adhering to high quality professional standards, with sound business acumen.
- **INNOVATION** and a solutions focused approach.
- **PERFORMANCE** driven and keen to deliver to the best of your ability every time, all the time.
- **AGILITY** - responsive to the needs of the customer.
- **QUALITY** focused and aspiring towards excellence in all things.
- **PRIDE** in supporting the delivery of extraordinary fleet solutions.

And in return...

As Oracle (APEX) Developer at Global, you will receive a competitive salary of up to £35,000 per annum. It's a great environment to work in. There's open communication with management, and ample opportunity to showcase your ideas to our shareholders and owners.
